YOUR OWN WEBSITE

A real website for your business, ready to share in every post

When someone sees your post in a Facebook group, the first thing they do is look you up. Every Honey Doo's account comes with a professional website that makes you look like the established local business you are.

A real, working example: Jeff's own site for Honey Doo's Handyman Services in Parker, AZ, built on Honey Doos. Yours uses the same design with your logo, photos, services and town.

See it live: parkerhoneydoos.com

Looks like you

Your logo, your photos, your town and your services on every page.

One link for everything

Your own web address for every post, your truck, your business cards and your door hangers.

Turns visitors into leads

A Request Service form on every page. You get a text the moment someone fills it in.

English and Spanish

Customers can read your site and send requests in either language.

Made for phones

Most people find you from Facebook on their phone. Big buttons to call you or ask for service.

Answers questions for you

A chat helper on your site answers common questions while you work (Pro and Growth).

POST IT YOURSELF

Post in your local groups in under a minute

Most of your work comes from neighbors seeing your posts. The post builder turns a finished job into a ready-to-share post, with your photos, local hashtags and a link back to your own website. You decide what goes out and where.

- 1 Pick a finished job**
Its photos come in on their own, and a post is written for you to start from.
- 2 Pick where it's going**
Your local Facebook group, your Facebook page, Nextdoor or Instagram.
- 3 Copy and post**
Tap Copy text and Share photos, then paste into your post. Save it to use again later.

- Every post links to your website, so the lead comes to you, not a competitor.
- The post builder and saved posts are included on every package.
- Try 3 AI-written posts free. The AI Power Pack writes them from your real jobs and reviews.
- Growth adds a one-tap Before / After picture of the job.

Create a social post

Pick where it's going and what it's about, add photos from a job, then copy it into Facebook, Nextdoor or Instagram.

Where will you post it?

☒ Local Facebook group

☐ Facebook page ☐ Nextdoor

☐ Instagram

What's it about?

Show off a finished job

Which job?

Bathroom mirror and light install - Sam

Write it for me (AI Power Pack)

Anything to mention? (optional) e.g. I

Write it for me

Writes the text and local hashtags from your business and job. Replaces what's below.

Post text

Just finished up bathroom mirror and light install for a neighbor in Parker.

If you have something like this on your list, I'd be glad to help. Send me a message!

Pick the job and where it's going

Your post, ready to copy

“ WHY IT EXISTS

Honey Doos was built by Jeff while running his own handyman business in La Paz County. Most of his work comes from local Facebook groups, and the business side kept getting in the way: a call missed while on a ladder, a quote that lived in his head, a customer who said "let me think about it" and never heard back.

So he built the tool he needed, and kept it simple enough to run from a phone in a driveway. Every account gets help getting set up, from Jeff.

HOW A JOB FLOWS

From the first post to the five-star review

Each step happens in the same app, so nothing slips through the cracks while you're working.

1

Post

Share a job or tip in your local Facebook group. Your website link goes with it.

2

Lead

A neighbor fills in your form with what they need and how to reach them.

3

Alert

You get a text right away, even when you're on another job.

4

Quote

Send a written quote from your phone. They approve it with one tap.

5

Invoice

When the work's done, send an invoice by text and email, with your Before and After photos.

6

Review

Follow-ups and review requests go out on their own, so the next job finds you.

WHAT YOU GET

Less office work, more booked jobs

Get found

- A professional website with your logo, services and service area
- A lead form you can link from every Facebook post
- Your services and prices shown clearly, in English and Spanish
- A social post builder with local hashtags, ready to copy into Facebook, Nextdoor or Instagram

Win the job

- Instant text when a new lead comes in
- Written quotes sent from your phone, approved with a tap
- A price book, so quoting a common job takes a minute
- Every customer's history in one place

Get paid

- Invoices sent by text and email, with an online link your customer can open anywhere (Pro and Growth)
- Deposits collected when a quote is approved (Pro and Growth)
- Before and After photos on the invoice, so customers see the work they're paying for (Growth)

Keep them coming back

- Automatic follow-up texts, so no lead goes quiet (Pro and Growth)
- Google review requests after every job (Growth)
- One-tap "Post this job" with a side-by-side Before / After picture (Growth)
- Works with no cell signal and syncs when you're back in range (Pro and Growth)

ADD-ONS

Add what helps, skip what doesn't

AI Power Pack

\$14.99 / month · included in Growth

AI writes your social posts from your real jobs and reviews, drafts descriptions and suggests pricing. Every account can try 3 AI posts free.

Campaign Engine

\$29.99 / month

Organize your marketing into campaigns with trackable QR codes and links, and see which ones made your phone ring and made you money.

Logo design

\$49 one time

AI-designed logo options. You pay only when you approve one you love, and it's yours to use everywhere.

Printed materials

Ask for pricing

Door hangers, business cards and leave-behind cards with your branding and a QR code that leads to your site.

QUESTIONS

Good to know

▼ Do I need a credit card for the free trial?

No. Try it for 14 days first, then pick the package that fits.

▼ Is there a contract?

No contracts. Pay monthly or yearly, and cancel any time.

▼ I'm not a computer person. Can I still use it?

Yes. It's built to run from your phone, and Jeff helps every new account get set up.

▼ Do I need an app from the app store?

No. It installs from your phone's browser like an app, and updates itself.

▼ Can my customers use Spanish?

Yes. Your website, forms and messages work in English and Spanish.

Spend your time on the work. Let the app handle the rest.

Start free for 14 days. No credit card, no contract.
